

YMCA CAMP CHANDLER

The Montgomery YMCA strives to help people of all ages, incomes, backgrounds, and abilities. Through the annual Partners with Youth Campaign, we give hope by making character-building programs available to children, teens, and families who cannot afford a YMCA experience. No one is turned away from participating because of his or her inability to pay. Scholarships are available because of funds raised by the Partners with Youth Campaign and your participation has provided an opportunity to help shape the character of our community by giving hope to someone in need.

A major emphasis of Camp Chandler has always been Character Development, centering on the core values of caring, honesty, respect, and responsibility all under girded by faith. The staff strives to put Christian principles into practice to create a fun and enjoyable experience in which children will grow in spirit, mind, and body. The Camp Chandler experience offers more than just education in camping and outdoor skills. In this atmosphere, children can develop self-confidence, social skills, leadership, initiative, group responsibility, appreciation of the natural environment, spiritual awareness, independence, and physical and mental growth. By the YMCA not turning away people who cannot afford to participate in these programs, we truly make a difference in our community. Thank you.
